

Run a sales organization in your market.

We build and operate AI-powered lead websites and 24/7 chat agents for local businesses. You build and lead the sales team that sells them. You hold an exclusive market, recruit your own closers, and keep 40% of everything they sell. The product, the build, and the support are handled by our studio, so you focus only on selling.

■ 48-hour build

■ 30-day money-back guarantee

■ Enterprise-grade build, performance & security

HOW IT WORKS

- 1 You get an exclusive market.** Your city or region, yours to build out, held by hitting a simple quarterly target.
- 2 You recruit and lead your own team** of closers, and pay them out of your share.
- 3 Your reps find and close** local businesses: trades, clinics, law firms, professional services.
- 4 Closed clients are handed to our dev team** with the deposit collected up front.
- 5 We build the site and AI chat agent**, then refine it directly with the client until it fits.
- 6 The client launches and pays monthly.** You earn on the setup and every month after.

WHAT YOU EARN

PER CLIENT, YOUR 40% SHARE

\$1.040.000

COP over the first 12 months. Example client at \$800.000 setup + \$150.000/mo: your side keeps \$320.000 of setup and \$60.000/mo. That is your budget to share with the rep who closed it.

YOUR PROFIT AFTER 12 MONTHS

CLIENTS	SETUP + 12 MO (COP)
10	\$10.400.000
25	\$26.000.000
50	\$52.000.000
100	\$104.000.000

WHO THIS IS FOR

Experienced sales leaders who can recruit and run a team, know their local small-business market, and want recurring income they own rather than a salary. You handle the selling. We handle everything that gets built and supported after the sale. **There is nothing to set up and nothing to pay to get started: no buy-in, no special fees, nothing at all. You earn when your team's sales clear 30 days.**
